

## SHAKER CODING CLUB CODING COMPETITION

# Teacher Directions

# Start Here

---

 Thank you for taking an interest in Shaker Coding Club's Coding Competition. As a teacher, you will be responsible for:

1. Collecting admission fees from your teams and returning them to Shaker High School.
2. Attending the Shaker Coding Club Coding Competition and chaperoning your teams
3. Letting us know you're coming!

On the last page of this guide is a blank form. Fill it out, save it or scan it, and email it as an attachment to [contact@shaker.codes](mailto:contact@shaker.codes) with the subject "SCCiv Teacher Form ([Your School])" by midnight on Wednesday, March 08, 2017 so we know you're coming.

If you have any questions, feel free to send an email to [shaker.codes/contact](mailto:shaker.codes/contact).

## Collecting Admissions:

We charge \$20.00 per team of four people (\$5.00 per member) to compete in order to cover food and administration costs. Collect these fees from your teams (in cash) and return them to Shaker High School in a sealed envelope addressed to "Shaker Coding Club for Shaker Coding Club Coding Competition (admission fees from [your school] )" at any point or on the date of the competition (March 10, 2017).

## Chaperoning:

As a teacher, you'll be responsible for looking after your teams before, during and after the competition. We've made this as easy as possible by grouping teams from the same schools near each other for contest hours. You won't be alone, either: Shaker Coding Club will also have chaperones present to make the whole process a smooth one.

 To avoid being trampled by an unstoppable herd of hungry programmers, teachers will be given access to dinner ten minutes before contestants (teachers also eat free!).

I am a teacher, and I agree to collect all admission fees (in cash) of \$20.00 per team and return them to Shaker High School before or on the date of the Shaker Coding Club Coding Competition (before or on the date of March 10, 2017). I agree to accompany teams originating from my school to the competition and act as a chaperone for the entire duration of the competition, and remain present until all members of my teams have left the competition. I am aware that being unable to fulfill these responsibilities may result in teams originating from my school being disqualified from the competition. I am aware that, should Shaker Coding Club be unable to accommodate all teams that sign up, teams that sign up later than others may be unable to compete (and that these teams will be notified by March 08, 2017). Finally, I affirm that I am aware that this event is for the betterment of students that take part in it, and I am totally prepared to have a fun time, because programming is awesome.
